

Refining Skills, Techniques & Protocols

February 26-27

This foundational session is necessary to lay the groundwork and prepare students for the upcoming clinical sessions to follow.

- The heart of BioEnergetic medicine
- Accurate & reproducible point testing
- Prescreening protocols & techniques
- Branching
- Amplification, filtering & layering protocols
- Advanced interpretation & prioritization
- Unlocking cloaked disturbances: "Most asymptomatic foci remain undetected"
- Causal chain pathogenesis
- Imprinting/inverting
- Correct diluting principles
- Allergy testing
- Spot checks
- Natural Remedy protocols
- Short Cuts
- Full body complete test including remedies in 15 minutes!
- Personal guidance and mentoring
- BioEnergetic terrain clarification
- Drainage & Detoxification: When to drain and when to detoxify.
- Homotoxicology & Biotoxicology analysis to determine systemic drainage capability, depth of xenobiotic manifestation, choosing applicable drainage remedy level etc
- Ground Matrix Regulation
- Right Spin/Left Spin "Can the body accept nutrition and detoxify?"
- Balancing left and right brain energetic communication
- Testing for electrical conductivity
- Quick test to assess patient's emotional level
- Transforming rigid signals into alert signals
- Specialized testing points for energetic signals of: Hepatitis, Hypertension, Otitis Media, Chronic Fatigue, Prostatitis, Rheumatoid Arthritis, Metabolism and Ileo-Cecal Valve related issues
- Meridian interrelationships
- Cellular communication
